

BANK AND FINTECH MODELS AND FRAMEWORKS OF COLLABORATION

20 NOVEMBER 2017
4:30PM

Bocconi University
Aula Zappa
via Sarfatti 25, Milano

In recent years, FinTech companies have brought innovation into the financial sector. While some banks may have initially viewed them as a threat, they are increasingly looking to understand the best flair of their different approaches. Banks and FinTech companies have to work on their respective strengths. Collaboration can be achieved through a number of different models or frameworks. The aim of the workshop is to stimulate a discussion on this issue and try to look forward.
